

# ABOUT ME

First of all, thank you for stopping by and taking the time to scroll through my Resume/Portfolio.

My name is Cesiah, and I have "THE" passion to create.

I am an eclectic Licensed Interior Architect and Designer in Mexico with experience in commercial and residential projects in USA and Mexico. I am currently, working on my Interior Design (CIDQ) license in the United States.

I am a person that is 110% organized and committed to any activity I perform. I love to create functional and beautiful spaces with evidence-based designs as a holistic approach for optimal human performance and experience. (My hobby is neuropsychology) Technical, creative, analytical, dynamic, and responsible are the words that best define my personality.

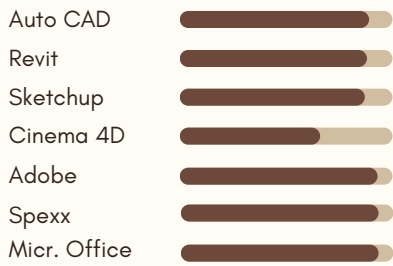

Cesiah Michelle  
Interior Architect & Designer

## SKILLS OBTAINED THROUGH EXPERIENCE

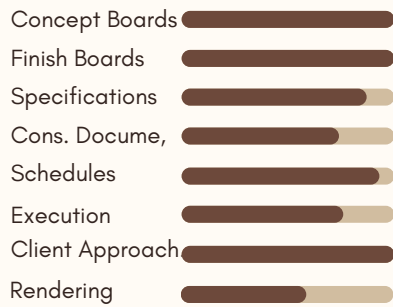

All of these are overall interior design skill applied to projects of experience.

- Provide design, procurement, and project management services to residential and commercial clients
- Work with multiple brands and participate in all phases of design from selection and full service
- Analyze scope and budgets and with input from the team, make adjustments and develop designs to meet scope budget and schedule.
- Work with project managers, hotel engineers for coordination and information needed for documentation of a project.
- Visualize and create space not only as it relates to furniture and finishes, but to the shape and interior architectural details of the space as well with new builds and remodels.
- Perform field verification with the appropriate supporting documentation.
- Accurately perform quantity take-offs and create budgets
- Space plan by hand sketching or using CAD, or REVIT
- Create brand designs and talk to representatives and to track approvals
- Develop and prepare FF&E hospitality specifications using the SPEXX program
- Prepare construction documents, working hand-in-hand with Job Captain and Architects to create, coordinate and execute design packages, including plans, elevations, millwork drawings, material selections and specifications required for construction
- Ability to discuss and coordinate with contractors.
- Participate in the construction administration of projects and reviews of submittals, review submittals, shop drawings and answer RFI's
- Attend project pre-bid and or FF E installations on own
- Attend weekly project conference calls.
- Communicate with purchasing and other project management on a regular basis throughout the project
- Develop organization and time management skills and the ability to multi-task and prioritize
- Contribute to office activities, initiatives and learning programs
- Interior construction means understanding, methods and procedures as well as building and accessibility codes
- Possess extensive familiarity with local and national vendors for furniture, fabrics and architectural materials, and hold responsibility for the selection of these.
- Prepare design presentations for Ownership and the hotel Brands using a combination of sketches, PowerPoint and Photoshop
- Concept and Finish boards.
